## PARENT TRANSPORTATION

### EARLY ARRIVAL

Our school day begins at 9:15 am for all students.

If you choose to provide your own transportation to school, you must remain with your child. If arriving prior to 9:15 AM, please wait in your cars in the parent drop-off loop until the bell rings at 9:15 AM, and a staff member is there to receive your student. Parents should not leave children unattended.

Students are not permitted to be dropped off outside the building when no staff member is present.  
**SAFETY FIRST!**

### LATE ARRIVAL

If your child will arrive late to school, you **MUST** come into the building's vestibule and sign your student in to school. **DO NOT DROP YOUR CHILD OFF OUTSIDE THE BUILDING. CHILDREN ARE NOT PERMITTED TO GO DIRECTLY TO THEIR CLASSROOMS UNTIL THEY ARE SIGNED IN BY AN ADULT.**

### EARLY DISMISSAL

If your child must be excused from school earlier than usual, **a call should be made to the front office prior to 1:30 PM notifying them of the time and person picking up your student.** If an emergency arises, where this is not possible, you must call the front office to provide the information needed. You will be required to sign your child out in the waiting area of the building's vestibule while also providing a photo i.d.

### PICKING UP

**You must come into the building's vestibule to sign your child out. No child will be dismissed directly to a waiting vehicle. No child will be released to anyone other than those individuals listed on the emergency forms, or identified in a note or phone call from the parent. Also, no child will be released to an individual unless the individual has proper identification. (i.e.: must be at least 18 years of age to pick up.)** Please note that when picking up your children at dismissal you must pick him/her up at the school in which they attend. During our Hybrid-Instructional Abbreviated Day Schedule, pick up will take place between 1:50 - 2:00 PM. When we return to our regular schedule, pick up will take place between 3:10 - 3:20 PM, if earlier than this your child may miss valuable instruction time. If you are picking up children at both the Primary and Elementary buildings, please arrive by (2:00 PM on a Hybrid day) or 3:10 PM on a regularly scheduled school day. Due to safety concerns, students are not permitted to walk from one building to the other for dismissal.

### LUNCH AND MILK

Hot lunch, including milk, will be provided at each building for all students. A menu for each month will be available on our school website. PLEASE READ THE MENU carefully to avoid getting a lunch your child may not care to eat.

When our regular school schedule (9:15 AM - 3:30 PM) returns, a computerized lunch system will be in effect called "My School Bucks". This can be accessed from our school district's website ([www.eht.k12.nj.us](http://www.eht.k12.nj.us)), or by going to [www.myschoolbucks.com](http://www.myschoolbucks.com) directly. Your child will be issued a card that will always stay in school. This card will be used by your child to purchase food in the cafeteria. The card has their ID # on it with a bar code for the computer. No one will be able to tell the Free or Reduced Lunch student from the full paid child with this system.

If you would like to pay in advance you may do it 2 ways:

- (1) Place the amount in an envelope with your child's name, grade & teacher's name on it. The cashier will collect the envelopes in the morning and deposit the money in your child's account.
- (2) Go on-line, create an account and sign in. Once into the system, you may add money to your child's account using a credit card. The program will keep daily records of your child's account.

Lastly, you may still pay for lunch on a daily basis if you choose.

**Free and reduced lunch forms will no longer be mailed. They will be sent electronically to the parents' e-mail address on file and are also available by visiting the district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) (click on District Services, Departments, and then Dining Services). Paper forms can also be obtained in the main office should you not have access to a computer/internet.**

### **SCHOOL NURSE**

The school nurse is available for any medical concerns during school hours:

- Please inform the school nurse of any allergies or illnesses that your child has even if they do not receive medication at school.
- The nurse will conduct routine hearing and vision screenings. You will be informed if there is a need for further testing.
- You must keep children home from school if they have had a fever or illness within the last 24 hours. If a student is sent home from school with a fever or vomiting, they should not return to school the next day. Failure to do so may delay your child's recovery as well as spread infection to others.
- If a student goes to the nurse and presents with flu like symptoms (fever, cough, etc.), the student will be sent home. If the flu like symptoms are diagnosed by a physician as H1N1, the student is not to return to school for 7 days. Upon return to school the student must have a doctor's note and be symptom free for 48 hours. Please refer to the website for more information, or call our school nurse.

**When a child returns after an illness, please send in a note stating the reason for absence and include dates. Absent Notes should be submitted within one week of the absence.**

**Ms. O'Rourke, Elementary School Nurse, can be reached at: (609) 645-3550 ext. 1310

A student shall not knowingly be admitted or retained in school if the parent(s) or legal guardian(s) has not submitted acceptable evidence of the child's immunization, according to schedules specified in N.J.A.C. 8:57-4 Immunization of Students in School.

Medical or religious exemptions to immunizations shall be in accordance with the requirements as outlined in N.J.A.C. 8:57-4.3 and 4.4. A child may be admitted to school on a provisional basis in accordance with the requirements as outlined in N.J.A.C. 8:57-4.5.

No immunization program, other than that expressly required by the rules of the New Jersey State Department of Health or by order of the New Jersey State Commissioner of Health, may be conducted in district schools without the express approval of the Board.

N.J.S.A. 18A:40-20

N.J.S.A. 26:4-6

N.J.A.C. 8:57-4.1 et seq.

You will be notified of these meetings via the monthly school calendar.

**In addition, parents or teachers should not send home any letters requesting money for any reason (i.e.: teacher's gifts, party or school supplies, etc.). This is not permitted.**

## SCHOOL PARTIES

The Parents' Club may assist at parties scheduled for the following events: Halloween, as well as, Winter and Spring holidays. Younger siblings **MAY NOT** accompany parents to parties or school events. (The single exception is Halloween where we welcome our school families to our parade.) These celebrations are designated for school students. The number of parents permitted to attend a school party will be decided in advance through the teacher with the Principal's approval. We are required to follow all fire code regulations with room capacity. Additional concerns are for the safety of our students and visitors.

For birthdays, parents may bring in cupcakes or cookies with prior approval of the homeroom teacher. These items are to remain in the Main Office for later pick-up by the homeroom teacher. **However, all food items entering classrooms must be checked by the school nurse, must follow our strict guidelines that they are not home-made and must be produced in a "NUT FREE FACILITY". ## **SCHOOL VISITORS**

The Board of Education welcomes and encourages visits to school by parents or legal guardians, other adult residents of the community, and interested educators. In order for the educational program

to continue undisturbed when visitors are present and to prevent the intrusion of disruptive persons into the schools, the Board directs the enforcement of rules governing school visits.

- The Superintendent and Principal each possess the authority to prohibit the entry of any person into a school of this district or to expel any person from the school when there is reason to believe the presence of such person would be detrimental to the good order of the school. If such a person refuses to leave the school grounds or creates a disturbance, the Principal is authorized to request from the local law enforcement agency whatever assistance is required to remove the individual.
- Visitors shall be required to register their presence in the school. No staff member shall transact business with or permit the continuing presence in the school of a visitor who has not been duly registered.
- No visitor may confer with a student in school without the approval of the Principal; any such conference may take place only in the presence of a teaching staff member and/or administrator.
- The Superintendent shall develop regulations that will protect students and employees of the district from disruption to the educational program and the efficient conduct of their assigned tasks.

### **HOMEWORK**

Kindergarten and 1<sup>st</sup> Grade homework will take approximately 10-20 minutes. In grades 2 and 3, homework will be approximately 20-30 minutes in duration. Homework will not be assigned on Fridays or on days before a holiday. Homework should provide practice of taught material. It should not be new learning. Homework does not include Reading every night. Reading is a separate activity. Students will be asked to read for 15-30 minutes a night, which is separate from Homework. (See Reading Section for more details.)

### **HOMEWORK HINTS**

Homework provides the opportunity for your child to practice the lessons of the school day. It helps the teacher determine student learning and decide if any remedial or enrichment lessons need to follow. It also helps develop your child's sense of responsibility. Here are some homework suggestions:

- Decide with your child on a regular homework time. Consistency and being included in the decision-making process will aid in the development of good work habits.
- Help your child set up a homework spot - a quiet place in the house where there will be few interruptions and where reference materials will be available.
- Make yourself available to answer questions and give assistance when necessary. Your help is important so that assignments are completed and turned in to the teacher on a timely basis.
- Provide your child with an assignment notebook. This will prevent lost assignments and allow you to communicate with the teacher.

**Homework is an excellent way for your child to share his/her schoolwork and accomplishments. It should be positive for both of you.**

### **READING**

**Please provide your child with a quiet place to read for 15-30 minutes per day.** Reading as a shared and independent activity will encourage your child and help promote the acquisition of a robust vocabulary and increased reading skills.

- Kindergarten students should be reading too. If a Kindergarten student cannot maintain 15-30 minutes of reading, then the parent(s) should read to them for the remainder of the 15-30 minutes. (Ideally, the Kindergarten student will build up stamina and be able to sustain

reading for 15-30 minutes by midyear). Early on, however, it may be necessary for the student to read sight words and sight word books with repetition partnered with a parent reading to the child for the remainder of time.

- Ideally, each night our 1<sup>st</sup> - 3<sup>rd</sup> grade students are to read for 30 minutes. They should be reading books at their level.
- We will ask parents to sign a contract with their child and teacher as reading is critically important to their acquisition of vocabulary, comprehension, and other skills.

### **CONFERENCES THROUGHOUT THE SCHOOL YEAR**

We request that all parents call the school for an appointment if they wish to schedule a conference with the teacher. Please establish a preferred method of communication with your child's teacher, such as e-mail, phone calls, or in-person conferences. If you have a concern with a teacher, bring it to their attention as soon as possible. Our expectations are that your child's teacher will do the same. If an issue or concern is not resolved with the teacher, please call the front office to speak with an administrator.

### **PROMOTION POLICY**

The criteria for promotion will include factors involving the child's progress academically, socially, emotionally and physically. Special education students will progress through the grade levels based on the goals and objectives written into their Individual Educational Plan (IEP). (Any concerns should be addressed with your Child Study Team Case Manager.) Promotion is also related to attendance regulations. Please see the attendance policy in this handbook.

### **INTERVENTION AND REFERRAL SERVICES**

The NJ Administrative Code mandates the establishment and implementation of a system for the delivery of intervention and referral services in each school. This building-based committee consists of representatives of our school staff: teachers, counselors, reading specialists, nurses, CST representatives, and Administration. The committee meets regularly to review individual student concerns brought to their attention by teachers or parents. Working in cooperation with families enables this committee to better understand how to provide appropriate assistance to our students. The function of this system is to develop and implement action plans.

These action plans provide for appropriate school or community interventions, as well as referrals to school or community resources. In addition, the committee provides support, guidance, and professional development to school staff. Parent communication in the development and implementation of referral services action plans is an important part of the process too. Please be certain to contact your child's teacher with concerns regarding their academic and social development. We are here to help you.

Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.

The Board of Education prohibits acts of harassment, intimidation, or bullying of a student. A safe and civil environment in school is necessary for students to learn and achieve high academic standards. Harassment, intimidation, or bullying like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe and disciplined environment. Since students learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation or bullying.

**"Harassment, intimidation or bullying"** means any gesture, written, verbal or physical act or any electronic communication, as defined in NJSA 18A:37-14, whether it be a single incident or a series of incidents that:

- 1.) Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability; or
- 2.) By any other distinguishing characteristic; and that
- 3.) Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3, that substantially disrupts or interferes with the orderly operation of the school or the rights of other students; and that

4.) A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or

5.) Has the effect of insulting or demeaning any student or group of students; or

6.) Creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student. This includes but is not limited to:

- Verbal: name-calling, teasing, threatening, taunting and gossiping.
- Emotional: shunning, isolating, rejecting, terrorizing, extorting, defaming, humiliating, blackmailing, manipulating friendships, initiating rumors, and extorting coercive peer pressure.
- Physical: aggressive physical contact, including punching, poking, choking, hair-pulling, beating, biting and tickling.

7.) "Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or pager.

Harassment, intimidation, bullying, fighting, or hate crimes of any kind will not be tolerated in school or on school property. The severity of the disciplinary action will be based upon the circumstances of the infraction. Consequences and appropriate remedial action for students who commit these acts may range from positive interventions up to and including suspensions or expulsion. The appropriate consequences will be consistent with the case law, Federal and State Statutes, and district/school policies and regulations. In addition, complaints may be referred to the police.

#### **Consequences and Remedial Measures for Acts of Harassment, Intimidation, or Bullying**

**FAMILY EDUCATION RIGHTS AND PRIVACY ACT (FERPA)**  
**NOTICE OF DIRECTORY INFORMATION**

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the Principal or designee a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate. Parents or eligible students may ask the School to amend a record that they believe is inaccurate. They should write the Principal [or appropriate school official], clearly identify the part of the record they want changed, and specify why it is inaccurate. If the School decides not to amend the record as requested by the parent or eligible student of the decision, the school must advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the School discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the *School District* to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

**Family Policy Compliance Office  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, DC 20202-5901**

Egg Harbor Township School District may disclose appropriately designated "directory information" without written consent, unless you have advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow Egg Harbor Township School District to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production
- The annual yearbook
- Honor roll or other recognition lists

- Graduation programs

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965 (ESEA) to provide military recruiters, upon request, three directory information categories - names, addresses and telephone listings - unless parents have advised the LEA that they do not want their student's information disclosed without prior written consent! If you do not want Egg Harbor Township School District to disclose directory information from your child's education records without written consent, you must notify the District in writing by December 1 of this school year. Egg Harbor Township School District has designated the following information as directory information:

### **PPRA Notice and Consent/Opt-Out for Specific Activities**

The Protection of Student Rights Amendment (PPRA), 20 U.S.C. § 1232h, requires the C. J. Davenport School Complex to notify you and obtain consent, or allow you to opt your child out of participating in certain school activities. These activities include a student survey, analysis, or evaluation that concerns one or more of the following eight areas ("protected information surveys"):

1. Political affiliations or beliefs of the student or student's parents;
2. Mental or psychological problems of the student or student's family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors or ministers;
7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

This requirement also applies to the collection, disclosure or use of student information for marketing purposes ("marketing surveys"), and certain physical exams and screenings.

**Should any surveys and/or activities be scheduled after the school year starts, the C. J. Davenport School Complex will provide parents, within a reasonable period of time prior to the administration of the surveys and activities, notification of the surveys and activities and the opportunity to opt their child out, as well as an opportunity to review the surveys.**

## **POLICIES**

All policies can be found on our district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us), as well as being available in the main office of each school.

### **2363 Pupil Use of Privately-Owned Technology**

The Board of Education recognizes technology is always changing and as a result of increased accessibility to technology many pupils possess technology hardware and software devices for their use during non-school hours. These privately-owned devices may be beneficial to pupils during school hours for approved educational purposes. Therefore, the Board of Education will approve pupils to use their privately-owned technology hardware and software devices under conditions outlined in this Policy.

For the purposes of this Policy, "technology" means hardware or software.

For the purposes of this Policy, "privately-owned" means technology hardware and software that is purchased, owned, and maintained by the pupil at no expense to the school or school district.

For the purposes of this Policy, "hardware" means any device that can store, access, retrieve, and/or communicate data or information. "Hardware" may include, but is not limited to, any type of: computer device; wireless telephone; electronic reader; personal digital assistant (PDAs); video broadcasting and/or recording device; or camera.

For the purposes of this Policy, "software" means any computer program(s) or related data that provide instruction for telling a computer or other hardware device what to do and how to do it. The use of privately-owned technology by a pupil in the educational program during the school day must be approved by the school teaching staff member responsible for supervising and/or providing the pupil's instructional program. Each teaching staff member may approve a pupil's use of privately-owned technology based on the assignment(s) to the pupil. The teaching staff member may also prohibit the use of privately-owned technology for an assignment(s).

Privately-owned technology will not be given access to the school district's computer server(s) or network(s). In the event the teaching staff member approves the use of privately-owned technology to access the internet, the access must be through the use of the district wireless network. A teaching staff member who approves a pupil to use their privately-owned technology to access the internet during instructional time will provide the pupil with a list of approved internet sites the pupil is permitted to access. A pupil granted such permission must comply with school district policies and regulations regarding acceptable use of computers and technology. Any use of privately-owned technology by a pupil shall be in strict accordance with the teaching staff member's specific approval(s) and Board policies and regulations. Any violation will subject the pupil to appropriate discipline and/or grading consequences.

The intent of permitting student use of privately owned technology is to provide the opportunity for an improved educational experience for all students. Staff members must use care in permitting privately owned technology use to ensure equivalent educational opportunities are provided for all students and that no educational disparity is created by allowing student use of privately owned technology.

During non-instructional times for students in grades K-12, cell phones and other devices must be off (not on vibrate or silent) at all times during school hours, unless permission for an approved use has been explicitly granted by a faculty member or building administrator. Upon completion of the activity for which the approved use was granted, cell phones and other devices are to be turned off for the remainder of school hours. Electronic recordings are prohibited unless prior permission is granted.

The school district assumes no responsibility for any privately-owned technology brought to school by a pupil. The pupil shall be responsible for the proper operation and use of any privately-owned technology brought to school. School staff members shall not be responsible for the effective use and/or technical support for any privately-owned technology.

The school district shall assume no responsibility for the security of, or damage to, any privately-owned technology brought to school by a pupil. Pupils are encouraged to purchase private insurance for loss, damage, or theft of any privately-owned technology the pupil brings to school.

Approved: 6/26/2012

### **2260 Affirmative Action Program for School and Classroom Practices**

The Board of Education shall provide equal and bias-free access for all pupils to all school facilities, courses, programs, activities, and services, regardless of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status. **Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.**

### **5530 Substance Abuse**

The Board of Education recognizes that a pupil's abuse of harmful substances seriously impedes that pupil's education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take the necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances. Accordingly, the Board will establish and maintain a comprehensive substance abuse intervention, prevention, and treatment referral program in the schools of this district. **Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.**

### **5338 Diabetes Management**

Diabetes is a serious chronic disease and must be managed twenty-four hours a day in order to avoid the potentially life-threatening short-term consequences of blood sugar levels that are either too high or too low and the serious long-term complications of high blood sugar levels. In order to manage their diabetes, pupils must have access to the means to balance food, medications, and physical activity level while at school and at school-related activities.

The parent or legal guardian of a pupil with diabetes who seeks diabetes care for the pupil while at school shall inform the school nurse who shall develop an individualized health care plan and an individualized emergency health care plan for the pupil. The individualized health care plan will be kept on file in the nurse's office. **Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.**

### **5331 Management of Life-Threatening Allergies in Schools**

The Board of Education disclaims any and all responsibility for the diagnosis and treatment of any illness, including any allergies, of any pupil. At the same time, the Board recognizes a pupil's health and safety may be contingent upon timely administration of medication duly prescribed by a physician. Any administration of medications to pupils in school will be in accordance with Policy No. 5330 and applicable State laws. **Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.**

## **5751 Sexual Harassment**

The Board of Education will not tolerate sexual harassment of pupils by school employees, other pupils, or third parties. Sexual harassment of pupils is a form of prohibited sex discrimination. School district staff will investigate and resolve allegations of sexual harassment of pupils engaged in by school employees, other pupils (peers), or third parties. **Please see district website: [www.eht.k12.nj.us](http://www.eht.k12.nj.us) for complete policy.**

## **2361 Acceptable Use of Computer Network, Computers and Resources**

With the spread of internal computer networks and telecommunications throughout the modern work place, the Board recognizes that students, teachers, administrators and other employees will shift the ways they share ideas, transmit information, and contact others. As students and staff members are connected to computer networks, their use of new tools and systems brings new responsibilities as well as opportunities. Appropriate tiered access will be assigned based on responsibility and job description as defined by the Board of Education.

The Board expects that all employees will learn to use internal networks, electronic mail and telecommunications tools when available to them and apply them daily in appropriate ways to the performance of tasks associated with their positions and assignments that pertain to the educational purposes of the school district. Students will learn to use resources as incorporated into the school curriculum.

Electronic information research skills are now fundamental to preparation of citizens and future employees during an Information Age. The Board expects that the staff will blend thoughtful use of such information throughout the curriculum and that the staff will provide guidance and instruction to students in the appropriate use of such resources.

Use of computer networks is a privilege and communications should not be considered private. Network supervision and maintenance may require review and inspection of directories or messages. Messages may sometimes be diverted accidentally to a destination other than the one intended. Privacy in these communications is not guaranteed. The district reserves the right to access stored records in cases where there is reasonable cause to expect wrong-doing or misuse of the system. Network storage areas may be treated like school lockers. Courts have ruled that old messages may be subpoenaed, and network supervisors may examine communications in order to ascertain compliance with network guidelines for acceptable use.

Telecommunications, electronic information sources and internal networked services significantly alter the information landscape for schools by opening classrooms to a broader array of resources. In the past, instructional and library media materials could usually be screened--prior to use--by committees of educators and community members, intent on subjecting all such materials to reasonable selection criteria. This Board Policy requires that all electronic materials be consistent with district-adopted guides, supporting and enriching the curriculum while taking into account the varied instructional needs, learning styles, abilities and developmental levels of the students. Telecommunications, because they may lead to any publicly available file server in the world, will open classrooms to electronic information resources which have not been screened by educators for use by students of various ages.

### **Staff**

In order to match electronic resources as closely as possible to the approved district curriculum, district personnel will review and evaluate resources in order to offer materials, which comply with

Board guidelines governing the selection of instructional materials. In this manner, staff will provide developmentally appropriate guidance to students as they make use of telecommunications and electronic information resources to conduct research and other studies related to the district curriculum.

As much as possible, access to information resources will be designed in ways which point students to those which have been reviewed and evaluated prior to use. While students may be able to move beyond those resources to others which have not been evaluated by staff, they shall be provided with guidelines and lists of resources particularly suited to the learning objectives. Students may pursue electronic research independent of staff supervision only if they have been granted parental permission and have submitted all required forms. Permission is not transferable and may not be shared.

### **Student**

Access to telecommunications will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with people throughout the world. The Board believes that the benefits to students from access in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources.

All students will be informed by staff of their rights and responsibilities as users of the district network prior to gaining access to that network, either as an individual user or as a member of a class or group. These rights and responsibilities apply to access to the network from within the school building, as well as off-site.

### **Online Global Communications**

We are pleased to offer students of the Egg Harbor Township Schools access to the district computer network to access programs and files on our internal network, for electronic mail and Internet access. For online global communications and the Internet, all students must obtain parental permission and must sign and return the form to their teacher.

Online global communications and the Internet will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with Internet users throughout the world. Families should be warned that some material accessible via the Internet and other electronic databases might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Egg Harbor Township Schools support and respect each family's right to decide whether or not to apply for access.

### **Online Global Communication and Internet Rules**

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

The network is provided for students to conduct research and communicate with others for educational purposes. Access to network services is given to those who agree to act in a considerate

and responsible manner. Access is a privilege, not a right. Access entails responsibility. Parent permission is required for students.

Individual users of the district computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with district standards and will honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers would always be private.

During school, teachers of younger students will guide them toward appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media.

### **Internet Safety Protection**

As a condition for receipt of certain Federal funding, the school district shall be in compliance with the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries. The technology protection must block and/or filter material and visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other material or visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses access by minors to inappropriate matter on the Internet and world wide web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including "hacking" and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors' access to materials harmful to minors.

Notwithstanding blocking and/or filtering the material and visual depictions prohibited in the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act, the Board shall determine other Internet material that is inappropriate for minors.

In accordance with the provisions of the Children's Internet Protection Act, the Superintendent of Schools or designee will develop and ensure education is provided to every pupil regarding appropriate online behavior, including pupils interacting with other individuals on social networking sites and/or chat rooms, and cyber bullying awareness and response.

The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly Board meeting or during a designated special Board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361. Any changes in Policy and

Regulations 2361 since the previous year's annual public hearing will also be discussed at a meeting following the annual public hearing.

The school district will certify on an annual basis, that the schools, including media centers/libraries in the district, are in compliance with the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act and the school district enforces the requirements of these Acts and this Policy.
